

The Case IH 1200 ASM 6-row Rigid Mounted Planter is the ideal choice for today's progressive grower. The compact configuration and streamlined, mounted design is solidly built around the same accurate Advanced Seed Meter™ (ASM) and Early Riser® row unit you'll find in every other 1200 Series planter.

The 1200 Series offers increased planting productivity. That's because our exclusive ASM lets you travel faster in the field without affecting seed singulation accuracy. Combined with the Early Riser row unit, you get an earlier, even emergence, stronger stands and higher yield potential.

The rugged 7- x 7-inch 3-point mounted bar provides pick-up-and-go convenience for fast, easy transport.

The rigid mounted design is perfect for planting cotton, small-seeded peanuts, soybeans and corn. Choose from 30-, 36-, 38- or 40-inch row spacing. Options include granular chemical or row-tillage attachments for increased cropping versatility.

Advanced Seed Meter

- Plant all seed sizes faster and with greater accuracy.
- Large seed disc rotates slower for spacing accuracy, even at faster speeds.
- Fewer adjustments required when changing seed sizes and crop types.

- Patented singulator spools are easily adjusted for multiple crop types.
- High capacity vacuum meter for positive seed holding capability.
- Convenient clean-out door makes changing seed types and crops easy.

Early Riser Row Unit

- Offers agronomic advantages for early emergence and strong stands.
- Narrow, 10.5 degree offset double-disk openers slice through residue and hard soil to open the furrow, reducing sidewall smearing and compaction.

- Trailing gauge wheels provide more consistent movement over rough terrain and keep moist soil next to the furrow, to be filled in later.
- Furrow firming point defines the seed furrow and removes loose soil.
- Patented double-disk closing system delivers moist soil over the seed from both sides.
- Wide press wheel system provides optimum soil pressure on top of the furrow to eliminate air pockets, ensuring optimal seed-to-soil contact and quick germination.
- Easy service access makes each Early Riser row unit clearly accessible.

SPECIFICATIONS

GENERAL

Frame Type	Mounted, non-folding
Number of Rows	6
Row Spacing, in. (mm)	Narrow: 30 (762) Wide: 36 (914), 38 (965), 40 (1016)
Seed Metering	Vacuum
Seed Hoppers	High-density polyethylene w/attached lid

SEED CAPACITY

On-row Hoppers, bu. (m3)	1.9 (0.07)
--------------------------	------------

OVERALL

Mainframe, in. (mm)	7 x 7 (178 x 178)
Drive	Ground drive system with 120 speed combination transmission
Drive/Carry Wheels	Two, 7.60-15SL, 10 PR tires
Hitch	3-point type, Cat III or IIIN; when using lift-assist wheels, quick hitch must be used
Hydraulic Markers	Folding automatic alternating
Monitor/Controller	Early Riser III monitor

DIMENSIONS

Transport Height w/Markers	6 RN – 9 ft. 10 in. (2.99 m)
	6 RW – 9 ft. 4 in. (2.8 m)
Transport Width w/Markers	6 RN, 30 in. (762 mm) spacing – 19 ft. 4 in. (5.89 m)
	6 RW, 36 in. (914 mm) spacing – 20 ft. 11 in. (6.38 m)
	6 RW, 38 in. (965 mm) spacing – 21 ft. 9 in. (6.63 m)
	6 RW, 40 in. (1016 mm) spacing – 22 ft. (6.7 m)

ATTACHMENTS AND OPTIONS

Granular chemical, row-mounted tillage attachments, lift-assist wheels, dual gauge wheels, dual arm drive wheels, chain guards and AFS Pro 600 or Early Riser III monitor
